

Elevating Every Touchpoint to Global Service Excellence

Company Profile

Company Profile

PT IAS Support Indonesia

IAS Support Ecosystem Integration

IAS Support is a trusted facilities management company dedicated to being a dependable partner for every client. With extensive experience, we manage integrated environments with care, continuity, and professionalism across airports, industrial estates, commercial districts, and tourism destinations.

Message from the CEO

Every great journey begins with one simple feeling: knowing you're in good hands. It shows up in the confidence you feel when you enter a safe space, in the comfort of facilities that run exactly as they should, and in the quiet impressions that stay with you long after you've arrived. Most of the work behind those moments happens out of sight. That's where IAS Support steps in.

We serve the aviation and transportation sectors by putting people at the center of every solution. Our role goes beyond managing operations. We show up as the steady hands and caring presence that keep each journey running smoothly.

Across every service point, our teams work with quiet dedication. They keep facilities clean and welcoming, protect the environment around them, and offer service that feels attentive, reassuring, and consistently professional.

Muhammad Putra Pariadi

Direktur Utama
PT IAS Support Indonesia

Their commitment is what upholds the quality our clients and passengers experience every day.

We also understand that progress means nothing without responsibility. That's why our vision keeps growing. Driven by innovation and genuine care, IAS Support is moving with purpose toward the global stage and shaping services that live up to international expectations. We're committed to becoming a trusted partner who inspires confidence and raises the standard for world-class service.

Thank you for the trust and partnership you've shared with us. We're here to grow together, create real value, and remain the steady, reliable presence you can count on in every journey.

Company Profile

IAS Support Indonesia (IASS) is proud to be part of Indonesia's aviation journey, growing into a trusted multi-service partner that supports both airport operations and the passenger experience across the country. Our services include **Facility Management, Manpower Services, ICT Solutions, and Equipment Supply & Maintenance**. Each one is developed with a clear purpose: to bring reliability and a human touch to the aviation industry, creating airport experiences that feel safer, more efficient, more comfortable, and more memorable.

Quality & Compliance

Quality and compliance are the core principles that guide everything we do. Our operations follow strict Service Level Agreements (SLAs) and are continually evaluated to ensure consistency and improvement. All processes are supported by a management system that meets international standards:

ISO 37001:2016 – Anti-Bribery Management Systems

ISO 9001:2015 – Quality Management Systems

ISO 14001:2015 – Environmental Management Systems

ISO 45001:2018 – Occupational Health & Safety

Our dedication to quality, transparency, and sustainability is reflected in the standards we uphold every day. These certifications are more than formal recognition. They represent a work culture built on integrity, professionalism, and a deep sense of responsibility to our partners, our people, and the environment.

About Us

IAS Support understands that operational excellence begins with the smallest details. As a trusted partner in aviation, transportation, hospitality, and tourism, we ensure every part of your service runs seamlessly so you can stay focused on growing your business.

With dedicated professionals across our service points, we are committed to creating spaces that feel clean, safe, comfortable, and truly cared for. Every interaction is delivered with professionalism and a warmth that leaves a lasting impression.

Vision

To become a world class provider of integrated area management support services, serving:

1. **Core** : Airport and Aviation Services
2. **Related to Core** : Tourism & Hospitality - Injourney Ecosystem
3. **Beyond Core** : Partners beyond airports and the Injourney ecosystem

Misi

- ✦ To deliver integrated, internationally benchmarked aviation support services, with operational excellence, service excellence, and customer satisfaction at the heart of everything we do.
- ✦ To create seamless, safe, comfortable, and memorable customer experiences through digital innovation, operational efficiency, and the warmth of Indonesian hospitality.
- ✦ To build human capital capabilities that ensure consistent service quality, with a strong focus on developing world class talent for Indonesia and the region.
- ✦ To foster strategic collaborations with national and global partners, creating value added synergies that accelerate the growth of aviation and other integrated area industries.

Skytrax Recognition

Soekarno Hatta International Airport has been ranked the 25th best airport in the world in the Skytrax World Airport Awards 2025, selected from more than 1,200 international airports.

Skytrax is a global aviation rating agency that evaluates service quality and facilities across both airlines and airports. Their assessment covers everything from terminal experience to overall operational performance.

In 2025, Soekarno Hatta earned the Skytrax 4-Star Airport Rating. This international recognition reflects the airport's continued progress in service excellence, modern terminal facilities, operational efficiency, passenger comfort, and its ongoing digital transformation in airport services.

The airport was also listed in the Top 10 Airport Staff in Asia 2025, highlighting the professionalism and warmth of its people.

Additionally, Soekarno Hatta received the Airport Health Accreditation from Airports Council International (ACI), reinforcing its commitment to strong health and safety protocols.

Several recognitions have been awarded to Soekarno–Hatta International Airport for the services and supporting facilities managed by IAS Support, including:

- 1**

Skytrax World Airport Awards

Certified with the 4-Star Airport Rating by Skytrax in 2025.

- 2**

ACI Airport Service Quality (ASQ) Awards

Recognizing exceptional passenger satisfaction across the Asia Pacific region.

- 3**

ASEAN Public Toilet Award

A reflection of our dedication to maintaining some of the region's best public restroom facilities.

- 4**

IATA Awards

Celebrating service and operational innovations that meet international aviation standards.

- 5**

Penghargaan Green Airport

Honoring our continued commitment to sustainability and environmentally responsible practices.

Our Services

Behind every smooth flight, countless details come together in quiet coordination. IAS Support ensures each of those details is handled with care through an integrated suite of services encompassing Facility Management, Manpower Services, ICT Solutions, and Equipment Supply and Maintenance.

Our services are built to deliver efficiency and meet international standards, while staying grounded in a people-first approach. Care is embedded in how we work, how we support, and how we serve.

Backed by skilled professionals, modern technology, and a commitment to sustainability, we go beyond operational support. We stand alongside you with reliability, dedication, and a human touch throughout every journey.

-
- ◆ Facility Management
 - ◆ Manpower Services
 - ◆ ICT Solutions
 - ◆ Equipment Supply & Maintenance

Facility Management

IAS Support delivers integrated services powered by skilled professionals and reliable systems. We take care of cleanliness, security, and facility maintenance to create work environments that are productive, safe, comfortable, and held to high standards.

35 Competency
Certification

◆ Building Management

Comprehensive oversight of daily operations, security, and facility upkeep to keep every space running smoothly.

◆ Facility Care

End-to-end maintenance that nurtures a productive, comfortable environment across offices, commercial spaces, and public facilities

◆ Parking Management

Professional, efficient parking operations that prioritize order, safety, and a pleasant experience for every user

Backed by strong internal resources and experienced talent

Flexible partnership and business models that adapt to client needs

Fully integrated facility management and manpower solutions

Supported by more than 3,900 skilled professionals

Equipped with digital monitoring systems across all services

Proven experience managing large-scale environments

Building Management

We provide professional building operations, maintenance, and facility management services. With an integrated system supported by experienced specialists, we deliver efficient and comfortable operations that elevate the image of a modern, well-run workplace.

Our projects cover a wide range of environments, including office complexes, hospitals, commercial areas, apartments, and public facilities. Our goal is to keep every building functioning at its best, safe and comfortable for every user, and supportive of daily productivity.

High Rise

We also offer professional cleaning services for sensitive and high-risk areas, ensuring cleanliness, user safety, and uninterrupted operations.

Facility Care

We focus on creating clean, well-maintained, and comfortable work environments delivered with professional standards and modern technology.

Our services cover public-area upkeep, waste management, and a range of specialized solutions tailored to the unique needs of each facility.

Robotic Cleaning

Smart cleaning support that helps our teams work more efficiently and consistently while keeping the environment healthier and greener.

Parking Management

Services that cover area operations, security, traffic flow, user assistance, and revenue optimization.

We create a safe, orderly, and efficient parking experience that strengthens the reputation of every facility we support.

- Long-Term Parking
- Transit-Oriented Developments (TOD)
- Shuttle and Taxi Pools at Soekarno-Hatta Airport

A photograph of three IAS Support Indonesia staff members standing in an airport terminal. On the left, a man in a light blue polo shirt, dark blue trousers, and a blue cap with 'IAS' on it. In the center, a woman wearing a maroon hijab, a white long-sleeved shirt, a maroon vest, and dark trousers, with her hand over her heart. On the right, a man in a light blue and dark blue polo shirt and dark blue trousers. All three are wearing IAS lanyards and ID badges. The background shows a large window with a yellow '14' sign.

Manpower Services

IAS Support Indonesia provides skilled, professional talent selected and trained through rigorous standards to support operations that are efficient, productive, and consistently reliable.

12 Competency
Certification

Licensed Manpower

Certified professionals who consistently meet world-class operational standards and qualifications, aligned with both national and international aviation regulations.

Unlicensed Manpower

Skilled and reliable support personnel who ensure every non technical function performs at its best.

Managing Aviation Security (Avsec) at 22 airports in Indonesia, 2 aircraft hangars, and 1 domestic airline

Experienced in safeguarding both airport operations and non-aviation sectors

Providing a wide range of professional personnel

Supported by over 6,000 licensed Avsec professionals

Recognized as a trusted, certified provider of airport security services

Offering both internal and public training programs

Licensed Manpower

Certified professionals who consistently meet world-class operational standards and qualifications, aligned with both national and international aviation regulations.

- **Aviation Security**
- **General Security**
- **PPP-PK / ARFF (Airport Rescue & Fire Fighting)**
- **Aviobridge & AMC Operator**

Unlicensed Manpower

Skilled and reliable support personnel who ensure every non technical function performs at its best.

- **Back Office Support**
- **Trolley and Tray Handler**
- **Contact Center Team**
- **Customer Service Officer**
- **Customer Service Representative**
- **Porter**
- **Driver**
- **Food and Beverage Attendant**

A row of five self-check-in kiosks in an airport terminal. Each kiosk has a large touchscreen display at the top showing a blue interface. The base of each kiosk is white with blue geometric patterns and text that reads "CHECK-IN MANDIRI" and "WEIGH YOUR BAG". The kiosks are arranged in a line on a polished floor, with airport signage and plants visible in the background.

ICT Solution

IAS Support Indonesia delivers integrated technology solutions designed to empower your business. From building robust network infrastructure and safeguarding information systems to developing business applications and providing hands-on technical support, we make technology work seamlessly for you.

36 Competency
Certification

◆ Digital Solution

Integration of technological innovation to enhance efficiency, productivity, and corporate competitiveness in the digital era.

◆ Telco & Connectivity

Integrated telecommunications and connectivity solutions to support communication efficiency and digital transformation.

We provide top-tier digital infrastructure services, including ICT Services, Cloud & Data Center Services, and Telco Infrastructure Services, empowering modern, connected operations.

We design integrated digital solutions tailored to support airport ecosystems, helping operations run smoothly and efficiently.

Our ready-to-use technology portfolio includes Airport Passenger Processing Systems, Smart Airport Solutions, Airport Digital Facilities, Airport System Integration, and Ticketing Systems.

With end-to-end system integration capabilities, we deliver tangible value that enhances both airport operations and broader industry sectors.

Digital Solution

We focus on smart technology and integrated systems that strengthen performance, boost efficiency, and help organizations adapt in an ever-changing digital world.

Our end-to-end system integration capabilities add real value, enhancing operations across airports as well as non-airport sectors.

Common Use Check-In System (CUCS)

Simplifying passenger services and streamlining check-in experiences across airport areas.

Building Management System (BMS)

Optimizing building operations and efficiency through digital monitoring systems.

Cloud & IOT

Harnessing real-time data and device connectivity to improve productivity, monitoring, and informed decision-making.

Cybersecurity

Creating a secure, trustworthy digital ecosystem for all your operations.

Telco & Connectivity

Network optimization that strengthens digital communication and connectivity. Supported by modern infrastructure and experienced professionals, this service ensures a reliable, secure, and efficient network for every operational need.

Public WiFi

services that provide safe, dependable, high-speed access across public areas while protecting both network integrity and user data.

Distributed Antenna System (DAS)

boosts coverage and signal quality across wide areas and multi-level buildings, delivering stable and efficient connectivity wherever it's needed.

Equipments Supply & Maintenance

IAS Support Indonesia ensures smooth operations by providing and maintaining high-quality equipment, so our partners can stay focused on delivering their best service.

7 Competency
Certification

✦ **Equipment Supply**

Reliable logistics support for spare parts and ground support equipment, serving airports and other critical operational sectors.

✦ **Equipment Rental (Managed Service)**

Flexible, cost-effective, and ready to use. Ideal for intensive operations, including ARFF vehicles and other essential equipment.

✦ **General Maintenance Workshop**

From routine upkeep to rapid repairs of critical equipment, we ensure operations run without interruption.

Extensive experience in
Operation and Maintenance
Management
